## HCPSL Grower Directors Announced

Herbert Cane Productivity Services Ltd (HCPSL) is pleased to announce the appointment of two Grower Directors for the coming Board term. As nominations for the Board did not exceed the available board positions, the new Grower Directors were appointed unopposed.

Returning Director Greg Erkkila will be joined by Anthony Girgenti and two returning Wilmar nominated Directors to form the new HCPSL Board. Their combined experience will support HCPSL's commitment to delivering high quality agronomic services to our members and the Herbert sugarcane industry.

HCPSL wishes to thank outgoing Directors Gino Zatta, Michael Pisano and Cameron Barber for their valued contribution to the company and the important role they played in guiding the strategic direction of HCPSL over the last 3 years.

The new Board of Directors reinforced their shared commitment to the future of the Herbert sugar industry during the final meeting of the outgoing Board of Directors and will sit in an official capacity for the first time in April.

HCPSL Manager Adam Royle welcomed the appointments, highlighting the Board's role in guiding strategic direction in an everchanging landscape. Having strong governance and a clear strategic vision ensures HCPSL will continue to provide the services and support our members rely on.

With a new Board in place, HCPSL remains firmly committed to delivering practical, on ground support for growers and the Herbert region's sugar industry. The organisation looks forward to the leadership and direction the new Board will bring.
